

Engineering Excellence since last 25 years.

COMPLETE SOLUTION FOR **ALUMINUM CASTING**

## RISHI ENGINEERING

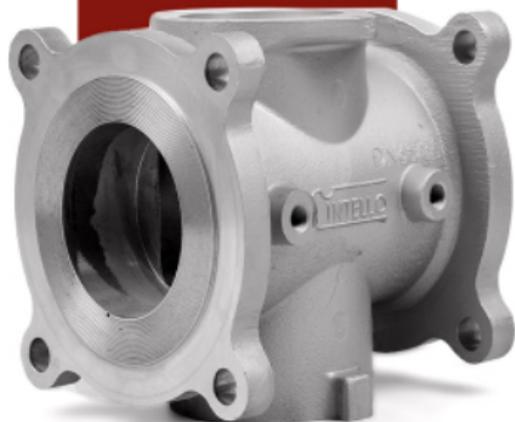

COMPLETE SOLUTION FOR ALUMINUM CASTING

### About us

We, Rishi Engineering Company Private Limited, are pleased to introduce ourselves as an ISO 9001:2015 & MPCB certified organization, since 2005, specializing in Gravity Die Casting.

We are engaged in the design and manufacturing of high-quality aluminum castings, offering complete end-to-end solutions to meet diverse casting requirements. Our manufacturing facility spans over 15,000 sq. ft., with an installed melting capacity of 40 tons per month with solar electricity

Our in-house capabilities include shot blasting, CNC/VMC machining, heat treatment, and other advanced aluminum casting operations. Additionally, we are supported by dedicated and qualified suppliers for metal impregnation, anodizing, yellow chromating, powder coating, and CED coating, ensuring a comprehensive value-added solution for our customers.

### Vision

To be a globally respected leader in aluminium precision casting, recognized for innovation, sustainability, and uncompromising quality that drives progress across industries.

### Mission

Our mission is to deliver end-to-end aluminium casting solutions that empower customers with unmatched efficiency, durability, and performance. We are committed to investing in advanced technology, skilled talent, and process excellence, while fostering a culture of innovation, sustainability, and continuous improvement. Through these efforts, we strive to create long-term value for our customers, employees, stakeholders, and society at large.

### Values

We believe in precision that ensures accuracy and reliability, innovation that drives progress, and integrity that builds lasting trust. With a commitment to excellence in quality, sustainability in practices, and collaboration with our customers and teams, we continuously create value and growth for all stakeholders.

### Quality Policy

At Rishi Engineering Co. Pvt. Ltd., we are committed to delivering comprehensive solutions that meet our customers' quality requirements for castings, precision-machined components, and related engineering services. We strive for continual improvement in all our objectives through training, total employee involvement, and a strong spirit of teamwork.

## MACHINERIES & INFRASTRUCTURE

Horizontal & Tilting Gravity Die Casting Machines – 5 Unit

Electric Melting cum Holding Furnace – 4 Unit.

Hardness Testing Machines – 2 Unit.

CNC Turning Machines – 4 Unit

Short Blasting Machine – 1 Unit

Screw Compressor (30 HP)

Pressure Testing setup

VMC Machines – 3 Unit

Genset 100KVA

Solar plant 150KW

Spectrometer – 1 Unit

N2 Degassing Unit – 2 Unit

Heat Treatment Furnace setup

**PRODUCT SEGMENTS**

Manifolds & Piping Systems

Hydraulic & Pneumatic Systems

Plastic Auxiliary Components

Filter & Flow Meter Systems

Pump Housing Components

Electrical Motor Flanges

Enclosures & Terminal Boxes

Industrial Coupling Systems

Scaffolding Support Components

Precision Gearbox Components

Valves & Actuator Systems

Industrial Burner Components

# Scope of Work

Drawing/Sample from Customer

3D Model generation

Methoding

Die Designing

Die making on VMC/CNC

Component casting i.e In gravity Dies Casting

Heat Treatment/Surface Coating, as per Customer Requirement

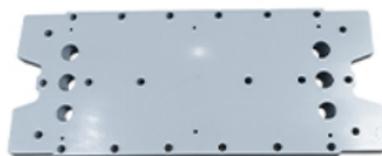

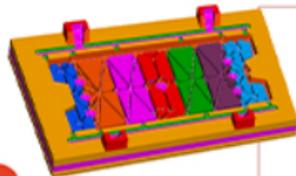

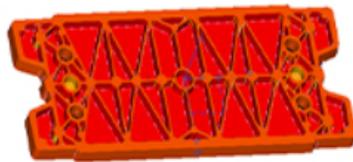

Machining

Assembly, as per Customer Requirement

Pressure Testing, as per Customer Requirement

Final Inspection

Dispatch

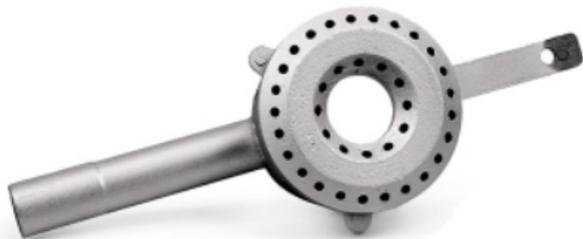

The logo for RISHI features a stylized red flame or drop shape above the word "RISHI" in a bold, dark red, sans-serif font. A thin red vertical line connects the flame to a red circular badge below.

**RISHI**
